Materials****PAGE: 1 of 2**

The county superintendent of schools establishes this administrative regulation to facilitate the timely distribution of incoming mail and the processing of outgoing mail and the delivery of printed/bulk materials for educational and business purposes. The Warehouse and Mail Services department is responsible for maintaining a system to coordinate, schedule, and process mail in conformance with United States Postal Service laws.

UNITED STATES POSTAL AND PRIVATE COMPANIES MAIL SERVICES

The Warehouse and Mail Services department processes United States Postal Service mail twice daily. Private postal service companies (i.e., United Parcel Services and Federal Express Services) are handled as needed.

SAN DIEGO COUNTY OFFICE OF EDUCATION DELIVERY SYSTEM

1. The San Diego County Office of Education Mail Delivery Service consists of the interoffice, intercounty agency, and inter-school/community college districts delivery and pick-up of letters, books, packages, and documents without United State postage affixed. Material(s) without United States postage affixed shall be sent by or addressed to officers or employees of the county superintendent of schools or school/community college districts in their official capacities. All materials must relate to official educational business of the county superintendent of schools.
2. Employee organizations that contract with the county superintendent of schools have access to San Diego County Office of Education and offsite facilities mailboxes for communications with unit members pursuant to conditions of their negotiated agreements.

Educational or professional organizations may request distribution of printed or bulk materials through the San Diego County Office of Education Mail Delivery Service without charge. However, the content of the materials must address an educationally related activity.

The educational or professional organization must obtain prior approval of the
